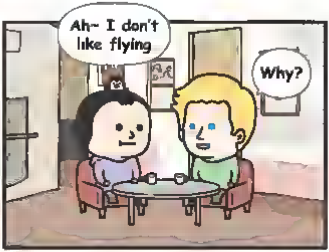
Penguin Loves Mev In the UK

Sympathy about air travel

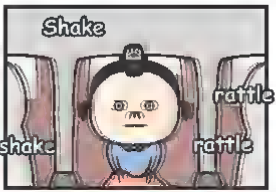
I often have go on a plane
as I live abroad.

In the beginning af the year,
I was away in Korea far a new book's launch
and to see my family.

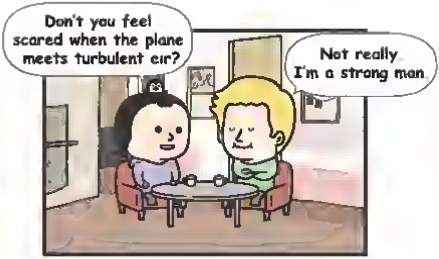


But I don't enjoy flying much

First, it's boring and tiring to stay in the aeroplane for o long time.



And I have a fear after o bad experience.

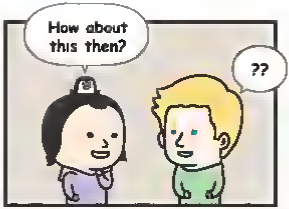


I couldn't gain an sympathy about turbulent air from Mev.

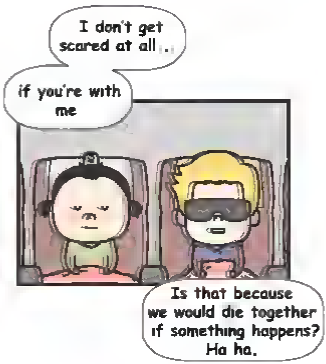
Oh well yeah
It's quite exciting
wherever you go.
And...

You see that many
people are waiting for
someone in front of
the arrivals?

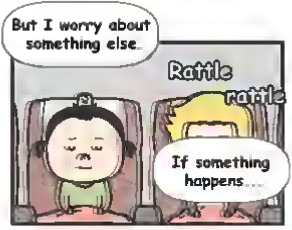
We found that we do the same thing.



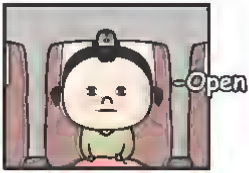
How about this then?
??



I don't get scared at all..
if you're with me
Is that because we would die together if something happens? Ha ha.



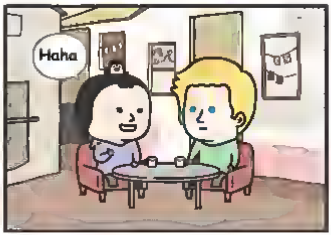
But I worry about something else..
Rattle
rattle
If something happens.....



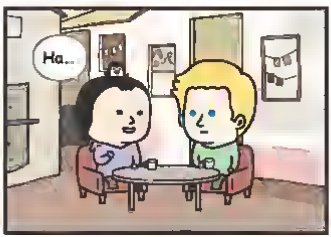
-Open

Is our home clean?
Did I wash up before I left?

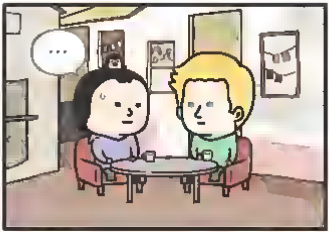
People go to our home and
see the mess, they would think we're lazy people. Haha.



Haha



Ha...



Sympathy failed
